

Iris Gravity Valve

Manual control for gravity-flow applications

Control the flow of powders, granules, flakes, crystals and more in production equipment like bulk bag unloaders, hoppers, bins, dryers, blenders and vertical pipe lines.

Closed Position

SECTOR INDUSTRIES:

Plastics

Pet Food

Construction

Food

Chemical

Features

- Available in 8 sizes, from 4" to 18".
- Double-locking diaphragm rotates 180 degrees for added security.
- Fixed bottom flange allows for easy use in down-line equipment.
- Polyurethane-coated nylon diaphragm.

Options

- Available in aluminum alloy and stainless steel.

SPECIFICATIONS:

DIAPHRAGM MATERIAL:

PU-coated Nylon

MATERIAL OF CONSTRUCTION:

Aluminum Alloy, Stainless Steel

SIZE RANGE

8 sizes from 4" to 18"
